BONNE TERRE PREPARATORY SCHOOL

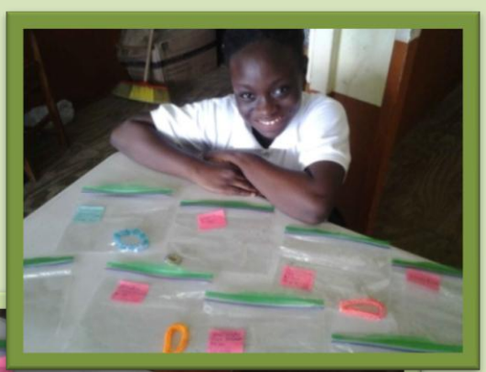
BUDDING ENTREPRENEURS

As part of the Grade 5 Social Studies study on industries, our students not only had to learn about the different types of industry but delve into the mechanics as to how they come about. To this end, the cottage industry was chosen and the students project was to create a product themselves, keeping account of all the steps involved in creating their product, how much they spent, how it was created, sell their products and balance their finances. Naturally, this is simply a lesson to bring out the creative and innovative side of our younglings.

Enjoy our lil' entrepreneurs exhibition and note the smiles on their faces.

Chocolate Cake

Loom Bands

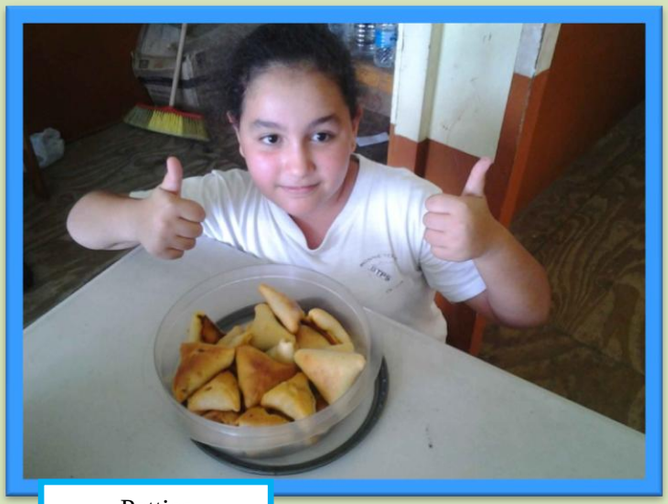


Loom Bands

Guava Jam

BONNE TERRE PREPARATORY SCHOOL

Cup Cakes



Patties

Corn Dogs

Easter Nest Cakes

Crépès

They had loads of fun selling their products.

Brownies

Tamarind Balls

Ice Lollies
