

MATHEMATICS QUIZ

The month of November was designated “Mathematics Month” and as part of our observances, teachers focused on the role of mathematics in our everyday lives. From calculating the time to do tasks, measuring portions for cooking, gauging distances between things in the house, etc. Mathematics is ALL around us.

We also held a quiz on Wednesday 18, November 2015 for the Infants (Grades 1 – 3) and Juniors (Grades 4 – 6). Now, one would not expect kids to be excited about Mathematics, far less a Math’s Quiz but our kids were! And from the loud cheers coming from our annex that day, we are pretty sure the neighbours would be surprised to know why.

AND THE WINNERS ARE!!!

- Grade 1 – Joshua Edwin
- Grade 2 – Shaan Cooper
- Grade 3 – Ari Brown
- Grade 4 – Arianna Mathurin
- Grade 5 – Dylan Philogene
- Grade 6 – Caitlin Curthoys

Congratulations girls and boys, and to add to the excitement this was a house competition also.

The scores were as follows:

Monplaisir – 265 points

Alexander – 260 points

Marshall – 240 points.

Congratulations to our **Monplaisir** winners!!!
